

SynthEngine::processCutoff

```
graph LR; A[SynthEngine::processCutoff] --> B[linsc]; A --> C[ParamSmoother::setSteep];
```

The diagram illustrates a function call from `SynthEngine::processCutoff` to two other components. The source function is represented by a grey rectangular box on the left. Two blue arrows originate from its right side, pointing to two destination boxes on the right. The top destination is a white box labeled `linsc`, and the bottom destination is a white box labeled `ParamSmoother::setSteep`. The entire diagram is set against a light blue background.
