

MTS_RetuningInSemitones

```
graph LR; A[MTS_RetuningInSemitones] --> B[MTSClient::semitones]; B --> C[mtsclientglobal::isOnline];
```

The diagram illustrates a sequence of three components connected by arrows. The first component, 'MTS_RetuningInSemitones', is highlighted with a gray background. It points to the second component, 'MTSClient::semitones', which has a white background. This second component then points to the third component, 'mtsclientglobal::isOnline', also with a white background. All components are enclosed in rectangular boxes with black borders.

MTSClient::semitones

mtsclientglobal::isOnline
